PROFESSIONAL SUMMARY

Full-Stack Web & Shopify Developer with 3+ years of experience building production e-commerce platforms and web applications. Skilled in the MERN stack (MongoDB, Express, React, Node.js), Shopify theme development (Liquid, custom sections, metafields), Shopify app development (Node.js, GraphQL Admin API, webhooks, Polaris), and PHP/Laravel backends. Experienced in converting Figma designs into responsive, production-ready interfaces and deploying on VPS infrastructure.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Shopify Liquid, Bootstrap

Backend: Node.js, Express.js, PHP, Laravel

Databases: MongoDB, MySQL, PostgreSQL

Platforms & APIs: Shopify (Liquid, Admin API, Polaris), REST API, GraphQL

Tools: Git, GitHub, Figma, VS Code, VPS / Hostinger Deployment

WORK EXPERIENCE

Full-Stack Web & Shopify Developer
May 2024 – Present

E-Comkix, Bahawalpur, Pakistan

- Built Shopify stores for clients (Wig Party, Forte Series) using Liquid, custom sections and metafields, converting Figma designs into responsive pages.
- Developed a Shopify Order & Invoicing app with Node.js and the GraphQL Admin API, including webhook integration and one-click PDF invoice generation.
- Built and deployed Laravel/MySQL e-commerce platforms on production VPS infrastructure, including server setup and database migrations.
- Contributed Laravel backend features and REST API endpoints as part of the E-Comkix development team.

Freelance Web Developer
2023 – 2024

Self-Employed, Remote

- Delivered full-stack MERN and Laravel projects, including Eligia (fashion e-commerce) and Ironclad Roofing (React/Vite marketing site).
- Designed and built responsive UIs from scratch, managing the full project lifecycle from requirements to delivery.
- Communicated directly with clients to scope requirements and ensure on-time delivery.

SELECTED PROJECTS

Wig Party wigparty.com

Shopify store built from Figma designs using Liquid, custom sections and metafields for a wig retail brand.

Forte Series forteseries.com

Shopify store built with Liquid and custom sections for a live e-commerce brand.

Shopify Order & Invoicing App

Custom Shopify admin app built with Node.js and the GraphQL Admin API — webhook-driven order sync and one-click PDF invoice generation via PDFKit.

Hardware Systems salman-ahmadd.myshopify.com

Converted a Figma design into a fully responsive Shopify theme using Liquid templating and custom JavaScript interactions.
